STATE DEPARTMENT MAKES PUBLIC ITS INFORMAL EXCHANGES

Believes That German Communication Unequivocal Expression Of Its Obligation--Expect That Further Negotiation With Allies Will Be Initiated.

(By The Associated Press)

WASHINGTON, April 4.—Paraphrases of informal exchanges between the German and American governments regarding reparations in which the United States holds Germany morally bound to make reparation, so far as may be possible, were made public today at the state department.

Describing the German communication as an "unequivocal expression" of the recognition of that obligation, the American reply expresses the hope that renewed negotiations which Germany says it plans to initiate, "may lead to a prompt settlement which will satisfy the just claims of the allies and permit Germany hopefully to renew its productive activities."

Included in the German communication is the suggestion that the only solution of the reparations problem is in an international loan in favor of which the allied and associated powers would waive the general mortgage on German assets created by the Treaty of Versailles.

German government says it allies and permit Germany hope "would not be unwilling to assume the obligation of the interest and the amortization of the foreign debts of the allied and associated powers within the limit of her capacity."

Germany Desires Investigation

Germany invites the examination "by unbiased experts of its own ability to make payment," and says she stands ready to meet any proposal which appears feasible for "the solution of the economic and financial problems of Europe."

The American reply makes no reference either to the proposed consolidation of allied debts as a German obligation or the suggestion for the determination by unbiased experts of the ability of Germany to pay.

Offers France Good Offices

Another consideration presented by Germany is that of the rehabilitation of devastated regions. The German government says it has good offices and resources in whatever form is acceptable. It asserts that the immediate rehabilitation of the devastated region it has repeatedly proffered labor, technical advice and material assistance, but that these offers have not been accepted.

Germany declares there exists in France only a limited degree of concern for the rehabilitation of the devastated regions, because advance indemnities have been given to former occupants of the soil, who have settled in other parts of Europe, and the work of clearing the war areas "has been undertaken by influential groups of promoters, who are making no effort to expedite the performance of their contracts."

The German communication is in the form of a memorandum of Dr. Walter Simons, minister for foreign affairs, dated March 23, and transmitted thru American Commissioner Dressel, at Berlin, who has had informal conversations with the German government on the subject for some time. The American reply is officially termed as a statement, sent to Commissioner Dressel, for communication to Dr. Simons. It is dated March 29 and follows:

"The American government is pleased to note in the informal memorandum of Dr. Simons the unequivocal expression of the desire of the German government of its desire to afford reparation up to the limit of German ability to pay. This government stands with the governments of the allies in holding Germany responsible for the war and therefore morally bound to make reparation so far as may be possible."

Hopes for Early Settlement

"The recognition of this obligation, implied in the memorandum of Dr. Simons, seems to the government of the United States the only sound basis on which can be built a firm and just peace under which the various nations of Europe can achieve once more economic independence and stability. This government believes that it recognizes in the memorandum of Dr. Simons a sincere desire on the part of the German government to open negotiations with the allies on a new basis and hopes that such negotiations once resumed may lead to a prompt settlement which will at the same time satisfy the just claims of the

SAFE GUARDING OF MONEY SHIPMENTS IS NOW EFFECTIVE

Planned To Circumvent Robberies During Crime Wave

**MAIL EVERY HOUR
CAMPAIGN PROGRESSING**

(By The Associated Press)

WASHINGTON, April 4.—Special safe guards around the shipments of currency worked out during the "crime wave" by a committee of two inspectors and one representative of the post-office department now are in effect. It was announced today at a conference between Postmaster General Hays and postmasters from eleven of the larger cities. Inspectors working directly under the postoffice department and in addition to the force regularly assigned to such duty are charged with the safety of all cash shipments. It was said and generally the plan has proved a success.

The conference today heard suggestions from each postmaster present on methods of expediting mail deliveries and improving service. Postmaster General Hays announced that with the approval of President Harding a welfare branch would be created in the department to aid in obtaining closer co-operation with organizations of employees.

Postmasters Can Help

Postmaster General of Washington asserted the postmasters could interest themselves in employee organizations and by including "the conservative among them to join, the control would not be left to a few radicals."

The "mail every hour" campaign was reported as meeting with success. Merchants in large numbers were reported to be turning to the parcel post for delivery.

Postmaster General Hays said that the service had increased so rapidly that additional facilities were necessary.

"Flat heel shoes" had given good results," said S. M. Selph of St. Louis, adding that every woman employee in his office wore these as well as a uniform while they wore caps and aprons.

Recommendation that some change be made so as to open to open to all the special clerks at a salary of \$2,100 and not confine it as at present to those with distributing experience was made and H. H. Billany, fourth assistant postmaster general, was instructed to ascertain why postmasters were not allowed to select rural carriers as they do city carriers, the former now being appointed by the fourth assistant postmaster general here.

WILL TRY TO BRING ABOUT ADJUSTMENT OF R. R. PROBLEM

Owners of Securities Confer With Big Four Employees

GOVERNMENT CONTROL IS ONLY SOLUTION

(By The Associated Press)

NEW YORK, April 4.—The national association of owners of railroad securities, in cooperation with representatives of the Big Four railroad brotherhoods and the shop crafts and telegraphers today took steps to bring about an adjustment of the railroad situation.

After an all day conference, S. Davies Warfield, president of the association and Warren S. Stone, grand chief of the brotherhood of locomotive engineers, spokesman for the railroad employees in a joint statement said that both sides "feel convinced a solution is practicable and thru proper cooperation between all parties in interest and governmental agencies charged with the responsibility in these matters there should be avoided any further substantial delay in adjusting this situation."

It is understood the labor leaders were favorable to the "Warfield plan" of railroad control proposed by the security owners' association. This plan, submitted by Mr. Warfield to the interstate commerce commission last month provides for a national railway service, division of the commission and four regional railway boards to supervise the management and operation of the railroad system.

Does Not Deal In Details

The statement said the conference today "did not deal in detail with wages and working conditions," but it was learned that the railroad workers' representatives made it plain that adjustment could not be made at their sole expense especially if the proposals were not accompanied by comprehensive methods that will lead to general economies in railroad management and operation.

Asked as to how it was proposed to force the railroad executives to recognize any plan proposed by the conference, representatives of the railroad security owners who claim to hold \$12,000,000,000 worth of railroad securities, said:

"We have decided to bring about a solution and while not ready to make known our plan of procedure we feel we are in a position to act. It must be remembered that \$350,000,000 worth of railroad securities mature this year and that practically none of the roads are making sufficient revenue to meet their fixed charges. This ought to indicate where the securities owners can do some good."

William Johnston, international president of the International Association of Machinists, declared while some plan might temporarily avert a crisis at this time, the only permanent solution of the situation was government control of the railroads.

"The discussion took a wide range and covered all phases of the railroad situation," said the joint statement issued by Mr. Warfield and Mr. Stone, "including the present difficulties involving employees."

PLAN PROGRAMS TO REVIVE EXPORT TRADE

Washington, April 4.—Formation of a program designed to aid the cotton interests in reviving export trade was begun at a conference here today between representative bidders from twelve southern states and Secretary Hoover and Mr. Mellon. Governor Harding of the federal reserve board and directors of the war finance corporation.

LITTLE PROGRESS IN LOCATING SLAYERS OF PRIEST

Detroit, April 4.—Authorities investigating the fatal shooting of Father Lee Jarecki of Wyandott, reported tonight they had made little progress toward identifying the priest's assailant. Their belief that the assassin was an enemy of the priest they said, was virtually the only theory upon which they were working.

SPRINGFIELD CARPENTERS ACCEPT REDUCTION

Springfield, Ill., April 4.—Springfield carpenters today accepted a reduction of ten cents an hour in agreeing on a new scale for the year beginning April 1. The new scale is 90 cents.

STILLMAN DIVORCE WILL BE FURTHER AIRED IN COURT

More Details Are Promised in Appeal Filed By Stillman

MRS. STILLMAN KEEPS IN THE RUNNING

(By The Associated Press)

WHITE PLAINS, N. Y., April 4.—Counsel for James Stillman, New York banker, who is suing for a divorce here, announced tonight that they will file an appeal against the order of Justice Morschauser fixing alimony, counsel fees and expenses and excluding certain documentary evidence as soon as the order has been served on Mr. Stillman.

The appeal, it was explained, will be directed against the decision excluding the so-called "confession letter" of Mrs. Stillman and letters addressed to her by Fred Beauvais, co-respondent, named by her husband and the order to pay her \$15,000 alimony, \$30,000 counsel fees and \$12,500 expenses within a period of thirty days.

The appeal which will, it is said, automatically make public these letters will be filed in the appellate division of the supreme court in Brooklyn probably tomorrow.

It became known today that affidavits, filed by Mrs. Stillman, in support of charges made against her husband, and Mrs. Florence H. Leeds in her amended answer contain names of twelve persons who support the allegations. They include Mrs. Sophie Bartkoff and Hannah F. Johnson, maids employed by Mrs. Leeds, and Frank H. Ivens, superintendent of the apartment house where Mrs. Leeds thirty months old son Joy W. was born. Justice Morschauser's decision was filed today in Putnam county where the action was started, but upon agreement of attorneys and the court, the papers were not made public.

Everett Harding Suffering From Dementia Praecox Katatonia

IT SOUNDS MIGHTY BAD ANYWAY

(By The Associated Press)

CHICAGO, April 4.—Investigation today by secret service agents of one hectic career of Everett Harding, who styled himself a "cousin of President Harding," and his confidential secretary, disclosed that on June 1920, the young man was adjudged a victim of dementia praecox katatonia. This was during the height of his activity in behalf of Senator Harding's candidacy for the presidency.

The examination to determine Harding's mental condition was made after he had been arraigned in municipal court on a charge of jumping a hotel bill. The case finally was dismissed for lack of prosecution.

Mrs. Ephraim Harding, Everett's mother, said her son "has been ill in body and mind for four years," and that he "should be under a doctor's surveillance."

She said that had checks passed by Everett were "due to his boyish enthusiasm." He is 28 years old.

Mrs. Harding declared she still was firm in the belief that her family was related to that of the president.

The downfall of Everett, who is held in the Woodstock, Ill., jail on a charge of impersonating a government official was brought about when P. President Harding sent James Sloan, his assistant secretary to Chicago. A \$1,000 bill for photographs sent to the White House for collection and President Harding sent Sloan to see if the photographs were worth the money. Everett is said to have been responsible for the bill.

WANTS PROTECTION FOR MOTHERS AND INFANTS

Washington, April 4.—Administration support to a bill for protection of mothers and infants, similar to the Sheppard-owner measure, which failed to pass at the last session of congress, was requested by a delegation of women, headed by Mrs. Maude Wood Park, chairman of the national organization of women voters that called at the white house.

President Harding was told that national women organizations favored such legislation,

READJUSTMENT OF GRAIN RATES IS RECOMMENDED

Interstate Commerce Commission Would Make Reduction

RATES EAST OF CHICAGO 3c LOWER

(By The Associated Press)

WASHINGTON, April 4.—Readjustment of export rates on grain and grain products carrying a reduction of 3 cents east of Chicago was recommended to the railroads today by the interstate commerce commission.

The commission's recommendations covered a general adjustment of grain and grain products rates and were outlined in a letter sent representatives of the roads by W. V. Hardie, director of traffic. The letter, it was explained, was in reference to the recent conferences between representatives of the grain markets, Atlantic and Gulf ports and carriers of eastern and western territory relative to grain rate adjustment.

Compare Rates.

Particular reference was made to lake and rail charges as compared with all rail rates.

After consideration of the whole situation and with the approval of Chairman Clark of the interstate commerce commission, Mr. Hardie stated there was no objection to a readjustment of rates as follows:

A deduction of three cents east of Chicago in the all rail export rates on grain and grain products. A reduction of one cent on grain and grain products on export traffic only from Missouri points including Sioux City, City to Chicago and Chicago rate points.

A reduction of four cents in export rates east of St. Louis on grain products.

Charges from Peoria and other related markets correspondingly to those from St. Louis and Chicago to preserve existing equality.

No reduction to be made west of St. Louis.

The existing "A. T." and East rates on export grain not scheduled to expire April 15 to be continued beyond the date indefinitely but with no further reductions at this time.

"The A. T. and East Domestic rates on grain April 15 to revert to the rates in effect August 25, 1920, plus 40 per cent to be applied on the net rates. Lake and rail rates on flour for export from Chicago, Duluth and Minneapolis to be reduced in the same amounts as the all rates east of Chicago thus maintaining differentials as compared with all rail.

No reduction in the rates on grain or grain products from Minneapolis to Chicago.

TIME FOR REMOVING CHARLES EXTENDED

Budapest, April 4.—(By The Associated Press.)—The time limit on the ultimatum from Czechoslovakia demanding the removal of former Emperor Charles from Hungary which had been set as Sunday night has been extended to noon Wednesday, it was announced today. The ultimatum was on account of the announcement from Steinsamanger, that the ex-ruler was ill.

Washington, April 4.—Additional land required to beautify the immediate surroundings of the great cemetery of the Argonne where more than thirty thousand American soldier dead were buried in France as well as that at Belleau Wood containing the greater number of marine corps dead will be given to the United States government by France the department announced today.

CROWN FORCES WERE AMBUSHED

Dublin, April 4.—Crown forces were ambushed early this morning in Shanbally County Tipperary, one of the attackers being killed and one wounded. In another ambush at Ballina, County Mayo, one constable was wounded. Last night a constable walking with a civilian in Carlow County Carlow, was attacked. The constable was killed and the civilian wounded.

Peoria, Ill., April 5.—Fire which started late last night in the plant of the Harrington Manufacturing Company was still burning early this (Tuesday) morning with no hopes of saving the factory. The loss is estimated at \$100,000. The company manufacturers wagons.

SEPARATE PEACE WITH GERMANY IS BEING CONSIDERED

Thought Resolution May Be Reintroduced at Special Session—Believe It Would Be Good Diplomacy and Give Leverage In Making Nations Come To Time.

(By The Associated Press)

WASHINGTON, April 4.—Altho the resolution declaring a separate peace with Germany is to be reintroduced at the special session of congress, present plans of Republican leaders include no provision for hurrying the measure to a roll call.

In some quarters close to the administration it was believed tonight that the peace declaration vetoed by President Wilson might rest on the calendar of deferred business for ninety days or more while President Harding tries out his preliminary ideas for establishment of an association of nations.

How far the president may have concurred in such a program was not revealed, but some who have his confidence said that with the resolution hanging fire the administration might be able to exert an enlarged influence in securing acceptance of its peace plans by other nations. Technically this government still would be at war with Germany, exercising full privileges of a belligerent in the arrangement of a final peace settlement and still be actually associated with the allies.

Several Plans Urged.

In such circumstances, it was suggested the possibility of a separate peace might be used diplomatically along with the foreign loan situation as "leverage to secure acceptance of Mr. Harding's plans for his peace association."

It is known that the subject of a peace declaration has occupied the active interest of administration officers recently and that several plans have been urged. Saturday the president held a long conference with Senator Knox, author of the original separate peace measure, and today he talked with Senator Lodge, Republican senate leader and Senators Watson of Indiana and Brandegee of Connecticut.

The British Ambassador, Sir Auckland Geddes, also called at the White House, and altho it was said the visit was one of courtesy the two held an extended conference.

The question of declaring peace by resolution has figured persistently in gossip among officials here regarding the visit of Rene Viviani but it was not indicated tonight what part the advice of the allied governments might have played in influencing a decision.

RETURN OF FORMER EMPEROR POSTPONED

Berne, Switzerland, April 4.—The return of former Emperor Charles to Switzerland has been postponed because of illness said to be pneumonia in both lungs says an official message received here today.

The situation is proving embarrassing to the government which has determined to withdraw its permission to Charles to re-enter Switzerland if the delay in his arrival continues unduly.

United States Not To Enter League

(By The Associated Press)

WASHINGTON, April 4.—The Harding administration intends to terminate the war between the United States and Germany by congressional resolution, M. Viviani, French envoy extraordinary is understood to have been informed tonight at a dinner at the home of Senator McCormick of Illinois.

The former premier was also informed, it was said by senators present, that the program of the administration does not contemplate entrance of the United States into the league of nations.

Those at the dinner stated that M. Viviani had been told frankly that it was useless to discuss the possibility of American membership in the league of nations. Most of the Republican members of the senate foreign relations committee and Col. George Harvey of New York, prospective ambassador at the Court of St. James, were among those present.

The French envoy, who was accompanied by Ambassador Jus-

A FINE PROJECT.
The Salvation Army because of a bequest of a tract of land in South Carolina, is about to establish a farm for children. The purpose is to take homeless boys and girls from the cities and to transplant them to the southern farm. The plan has much about it that appeals and the practical good sense that the Salvation Army has shown in the management of its enterprises promises that this children's farm center will succeed.

A MATTER OF GENERAL CONCERN.
One has but to review the Morgan County Red Cross survey to find out that public health is a matter of real concern. The individual who thinks he has no interest in this matter is greatly mistaken, for violations of public health rules menace his personal safety and cause economic losses which he must share.

It does not take a very deep study of the public health question to furnish convincing argument that there are excellent possibilities in the all-time county health officer plan—possibilities for both bettering health and sanitary conditions and at the same time reducing public expenditures for these things.

A CHANCE FOR PEACE.
Bert Jewell, head of the railway employees' department of the railroads, is in Washington for a conference with the president and the heads of the interstate commerce commission and the railway wage board. The invitation to Mr. Jewell gives proof of the president's wish to afford

all parties to present controversies a fair hearing. It also gives foundation for the hope that some satisfactory way will yet be found for the smoothing out of difficulties without the rancor of a railroad tieup and its attendant losses.

IT'S TOO DIFFICULT.
In a northern state it is now proposed to have a co-operative dairy. There is a lot to this co-operative spirit, but it can be overdone. Here's a guess that the co-operative dairy will not have a long or peaceful existence. It's a difficult, intricate business, one which because of its unending daily demand taxes the nerves and the patience even more than does the average business enterprise.

SOME GOOD BILLS AND SOME BAD.
A number of bills which interest automobile owners are before the legislature. Some of these are freak such as requiring a controller on every car to reduce the speed to 25 miles an hour. But there are some good measures, also, which will tend to both greater public safety and more protection for car-owners. The bills are so numerous that the wise car owner will look up the proposals and tell his representatives about his opinion.

A NEEDED ORDINANCE.
The city council is taking the proper action in the passage of an ordinance for the control of public dances. Such ordinances now exist in most Illinois cities and the tendency in public dancing entirely justifies the supervision.

Some people may look upon "dancing" ordinances as interference with individual rights, but occasionally a public dance is conducted so offensively as to become a public nuisance—a public nuisance and should properly be classified as such.

SECOND QUARTER CERTAIN TO BRING BUSINESS.
The first quarter of 1921 promises to be followed by a somewhat better second quarter and a very much better third quarter and fourth quarter. We are reaching the final stages of the present readjustment

movement. Wages proverbially are "the last thing to go down," sharing this distinction with rents.

Although the air is thick with uncertainty, I do not believe the nation's business will be thrown into chaos by strikes of railway men all over the country. There may be shortsighted outbreaks of local importance here and there, incited by ill-advised agitators. But in my opinion, the great majority of railway workers are today alive to the downward trend of everything and will accept a reduction in wages as inescapable. Let the railroad outlook be cleared up and let the steel industry be placed on a stable footing, and I believe a more cheerful view will be taken of the whole economic situation.

There is warrant for increasing optimism rather than the deepening pessimism which recently developed.—B. C. Forbes, in Forbes Magazine (N. Y.).

MUSICIANS NOTICE

Deaths
Armstrong.
The death of Thomas Armstrong occurred at 4:30 o'clock Monday morning at his home, 730 South West street. Mr. Armstrong's death came without warning and an inquest was therefore necessary. Coroner Rose summoned a jury and after hearing the evidence a verdict was returned that death was due to heart disease. Altho Mr. Armstrong had suffered a number of heart attacks he had been in seemingly good health and so his sudden death came as a great shock to members of the family and to friends.

Mr. Armstrong was born in 1854, a son of Mr. and Mrs. Joshua Armstrong, and the family home was in the Oak Ridge neighborhood. He was educated in the schools in the vicinity of his home and later engaged in farming, that line of work occupying his attention until a few years since, when he became a resident of Jacksonville.

On April 21, 1901, Mr. Armstrong was married to Miss Adele McDermott of Chicago, who survives him. He leaves also four sisters and one brother, Mrs. Eugene Scott and Mrs. Amanda Brown, Pleasant Plains, Mrs. Anna Brown, 297 South East street and Mrs. Lucinda Lindsay, 749 West North street, Jacksonville; Edward Armstrong, resident in the county.

The coroner's jury which investigated the death included Dr. Ellsworth Black, foreman; William McCurley, Timothy Keating, L. A. Cooper, Lloyd E. Wells, and Louis Leurig, clerk. The funeral will be held at 2:30 o'clock Wednesday afternoon from the home, 730 South West street. Burial will be made at Diamond Grove cemetery.

LITERATI WILL HAVE PROGRAM
A course of readings by writers of poetry is being arranged for next fall and winter at the Chicago public library, and Wayne Card of this city, has been invited to appear on the program. The course is to be under the auspices of the Bookfellow, an international literary organization.

Mr. Card has reason to feel honored in being one of such a group, but as he is expecting to be abroad in missionary educational work at that time he will not be able to take part in the program.

RETURN FROM HOT SPRINGS
Mr. and Mrs. Samuel Henry have returned to their home in Woodson after an extended stay at Hot Springs, Ark. They return greatly benefited by their stay at the noted health resort. While there they met a number of Morgan county residents. Mr. and Mrs. Lawrence Henry remained for a longer visit with the latter's father, Mr. Klothe.

RICKED BY A HORSE
Anderson Mullens was badly injured Sunday when he was kicked in the face by a horse on the farm of Fred Moeller, in Alexander precinct. A physician gave the necessary medical attention and Mr. Mullens will be laid up for some time. It was at first thought that the injuries were of a more serious nature than proved to be the case.

STORY'S EXCHANGE
We Never Quit
You say you have missed my ad? Well, I've been too busy to write it.
Yes, a little different from our last year but we are still all here, and still want to sell and buy, borrow and lend, but we must throw up our chin, And just buckle in, And take it from me We're dead sure to win.
(a) Will sell you a nice little farm well located, and take that residence property in exchange.
(b) Will trade you a 30 acre farm clear, near here and take your business building.
(c) Will sell you one of the most desirable store buildings on the square at a real bargain price. Let us prove it.
(d) Say folks, need a house right away? We have it. Splendid west side residence. Modern throughout. It is a real ready made home and vacant this minute. Well hurry then, if it sounds good.
MONEY
Yes, real money, coin of the realm. Say how much you need. Or better still say how much you have idle—You know we represent the Straus Brothers Company, the "Old Reliable," and can place your money as securely as mother earth and a first mortgage can make it, and to draw 7% or better, free from tax. We are placing thousands and thousands for your neighbors, and they will be glad to tell you all about it. Business kept as confidential as you desire it.

Doctor Eaton is exactly right.
No matter what class you were born in, there is so much class in a Jacksonville Tailoring Company suit that you can "look right" for the same amount of money you are now paying for inferior clothes.
A good tailored to measure suit, of our imported or domestic fabrics, is a whole sermon in "class." Drop in and see the beautiful Spring styles.

HOME DEPARTMENT IN ANNUAL SESSION

Seventh Annual Session Held in State Street Church — Interesting Program Carried Out.

The seventh annual luncheon and program of the Home Department was held at the State street church yesterday.

An excellent luncheon was served to more than 50 at noon by the State Street church ladies.

Excellent music was rendered by the ladies' quartet of Grace church, which was composed of the following members: Mesdames C. A. Obermeyer, J. J. Reeve, E. D. Herald and Charles Hopper. Also two delightful numbers were given by Miss Hilma Samples and Miss Margaret Jer-

ald, who played a pleasing violin obligato to Miss Sample's vocal number, which was greatly enjoyed.

The other part of the program was given as follows:

Neglect—How To Keep It Alive. Attention, Rev. Ray Ragan.

How the Home Department and Cradle Roll May Be of Service to Each Other.

Rev. E. L. Pietcher.

The Neglected Classes.

C. O. Bayha.

Rev. W. E. Sponta.

Greetings from Fred Schofield, who is president of the Morgan County Sunday School Association.

"Look Ahead, Go Ahead; Take One Step at a Time."

Ben Roodhouse.

Mrs. J. W. Sperry, Mrs. E. B. Spink and Mrs. Walters, as nominating committee, named the following officers or the ensuing year:

President, Mrs. Charles Hopper. Vice President, Mrs. John Kas-trup.

Secretary and Treasurer, Mrs. Harry Timmons.

The banner was earned by the members of the home department of the Christian church, as they had the largest per cent of their members who had each lesson.

besides they had an offering for each Sunday during the year.

The Home Department union voted to invite the Cradle Roll workers of Jacksonville and vicinity into the union.

This union is not barren of results, for on account of this Cradle Roll superintendent was secured for one of the Jacksonville churches and who is able to estimate results like that.

April 3, 1921, the annual meeting will be held in Northminster church.

Mrs. Charles Hopper, Pres. Mrs. Tillman Stout, Acting Secretary.

JOINT RECITAL IS GIVEN MONDAY NIGHT

Miss Isabel Woodman and Miss Mona Ramsey Give Pleasing Program — Large Audience Expresses Its Approval.

The Woman's College scored a new triumph yesterday evening when it was represented by two students in the College of Music in joint recital.

The students were Miss Isabel Woodman of Jacksonville, organ pupil of Mr. Pearson, and Miss Mona Ramsey pupil of Miss Louise D. Miller.

Each of the young ladies appeared in three groups of numbers in her special line and in each group appeared at better advantage.

The large audience manifested its approval by frequent recalls and so strong was insistence that Miss Ramsey at her third recall at the end of the program added one more song.

Her high clear voice was at its best on this occasion and the numbers were chosen from the old English school, the songs of Schubert and the modern song writers.

Miss Woodman showed careful training and a lightness of conception and execution that is often lacking in players of the organ. Her pedaling was true and registrations satisfying. Her quick manipulation of the resources of the organ are noteworthy.

The Woman's College has been pouring itself for many years into the lives of young women throughout the land its richest crown of glory consists in such demonstration of the success of students as was shown last night. These students thru their diligence have made such use of the resources of the school that not only their own lives but the lives of all who come in contact with them in years to come will be greatly enriched.

DANCE TO BAND

Greatest musical program ever offered for dancing, Armory Hall tonight, two orchestras and Jacksonville Band, playing alternately.

PLANS FOR MUNICIPAL FLYING FIELD MATURING

Autoists along the hard road east of the city yesterday might almost have thought that a circus was in town when they came upon the great number of cars parked in and near the Backthorpe field, but it was only that the day was beautiful and many took advantage of it to drive out to see the big airplane and possibly to take a ride with Messrs. Robertson and Hutson in the clouds. The following persons enjoyed an airplane ride Sunday: Miss Helen Cannon, Miss Beatrice Sargent, Mrs. T. H. Backthorpe, John Jeffries, Clyde Baker, G. T. Ledgerwood, Robert Spahnower, Joe Wolke, Russell Nash, D. Scott Sweeney, H. A. Molohon, Albert Tiley, G. L. Beekman and Floyd Rehmler.

The outlook for a landing field for Jacksonville is good. The Messrs. Robertson, Hutson and others interested, met Monday night with the owner of the most suitable field in Jacksonville and it is understood were able to reach a practical working agreement. It remains now for the details to be worked out, which will probably be done this week, and it is thought that the Automotive Dealers' association will take it upon themselves to see that a field is assured.

FROM NEBRASKA.

Mr. and Mrs. Ensey Moore returned Saturday night from Wayne, Nebraska, where they went to attend the Harrington-Morrison wedding, and to see friends. The new Mrs. Harrington, nee Ella King Morrison, was prepared for her own wedding after assisting here at that of her cousin Miss Clara Catherine Moore. The wedding festivities were very pleasantly carried out at the home of Mr. and Mrs. J. Woodward Jones, and Mrs. Wm. McMillan and Mrs. Josephine Morrison Pierson were present, as was Mr. and Mrs. Edwin Rees Morrison, brother of the bride.

The young people go into their own elegant colonial style residence just built.

The Moore's spent Saturday in Quincy, Ill., on business, en route home.

CAPTAINS NAME AIDES IN CENTENARY CLASS

A contest between two divisions which is expected to greatly increase the membership and attendance of the Loyal Men's Class of Centenary Methodist church was started Sunday. Captains Patterson and Deatherage selected their lieutenants, and soon the present membership of the class will be engaged in striving for new members.

"Reds" and "Blues" will term the two sides in the contest. The captains have not yet decided under which color they will serve. Patterson's aides will be Arthur Ellis, C. A. Fielder, Fred B. Six, C. L. Hankins and L. E. Dappe. Deatherage's lieutenants are H. C. Busby, George L. Riggs, George Edman, E. G. Saye and another is to be named.

The captains and their lieutenants will meet at the church Wednesday to discuss further the plans of the contest, or campaign.

The Loyal Men's class is one of the largest in the city and will attempt to raise its membership to 200. Yesterday there were 75 men in the class, a gain of about 15.

(Continued from Page One.) they even reached the point of diplomatic exchange. The reason is not far to seek.

"Peculiar though it may seem, there exists in France only a limited degree of concern for the rehabilitation of the devastated regions. Advanced indemnities have been given to the former occupants of the soil and these occupants have removed to other parts of the country and taken up their abode there. The salvaging of the abandoned war materials and the cleaning up of the war areas has been undertaken by influential groups who are making no effort to expedite the performance of their contracts. The fact that influential opinion in France sees in the devastated region a remarkable opportunity for a political agitation, which will always make a deep impression in the minds of the people of France and on foreigners, has an important bearing on the issues.

"The German government does not desire to see hate perpetuated between nations. In accordance with this purpose it intends to submit fresh proposals, subject to the government of France, the details of which are now under consideration and the subject of discussion with the laborers of Germany. Should the government of France entertain objections to the employment of numbers of German laborers in the areas undergoing reconstruction, the government of Germany stands ready to offer to France good officers and resources in whatever form is acceptable.

"In respect of the second consideration, namely, the immediate establishment by Germany of an actual sum of money in foreign exchange of important proportions, it is obvious that Germany can fulfill this obligation only thru large increases in the volume of her exports. The memorandum prepared by the economic experts of Germany for use at the conference in London demonstrated how huge this increase in Germany's exports necessarily would be if great sums of money were to be obtained and the measure this great increase would imply for the economic life of their countries. Conceding even this, it further remains that the sums in cash required could not immediately be realized.

"Other considerations have been advanced at various times among them the proposal that our former opponents in the great war should participate in the returns from German industry, either thru taking shares of the capital stock of German companies or by other forms of the sharing profits. "Such a proposal would produce only proceeds in paper marks valueless to foreign creditors. Indeed, the allied and associated governments themselves negotiated these proposals in the treaty of Versailles by taking for themselves a first mortgage on the total wealth and all sources of income of the German commonwealth and states. In addition to this, the allied and associated governments, in their deliberations at Paris, reserved for themselves the decision as to what opportunity, if any, Germany may in any instance be given to obtain credit abroad, because England and France are themselves in debt beyond their limit, and the granting of a credit to Germany by a neutral power is blocked by the general mortgage. "Suggests International Loan "An international loan, in favor of which the allied and associated governments would waive their general mortgage, constitutes the only solution of the problem. The government of Germany is prepared to offer the necessary securities for the safety of such a loan. It is the opinion of the German government that if the loan were properly organized and offered, and if those who evaded taxation be granted a general amnesty, the large sums of German capital which have been secretly withdrawn from Germany could again be drawn in for the loan and hereby become available for the reparations.

"It has been reiterated by the allied and associated governments that the situation of Germany is better than that of many of the allied and associated countries, due to the fact that Germany has no foreign debts. Germany would not be unwilling to assume the obligation of the interest and the amortization of the foreign debts of the allied and associated powers, within the limit of her capacity, should this measure be entertained by the allied and associated governments and their creditors.

"Germany stands ready to meet any proposal which appears reasonable for the solution of the economic and financial problems of Europe, and would invite the examination by unbiased experts of its own ability to make payment. It is the opinion of Germany that the heavy weight of debt now borne by all the states which were participants in the World War, and the damages which were wrought in the course of that war cannot be laid upon the shoulders of a single people.

"Germany believes also that a policy of duress and coercion would not bring about the reconstruction of international economic life and that only by way of peaceful discussion and understanding can such reconstruction be obtained. The German government considers it is important to give, with solemn emphasis, the assurance that for its part it is honestly willing to follow the path which it has suggested."

PROMISE NEW EXPOSE

IN BASEBALL SCANDAL

May Reveal Men Who Won More Than \$300,000 on World's Series — Bonds of Players Reduced to \$7,000 Each.

Chicago, April 4.—Promises of a new expose in the baseball scandal came from an unexpected quarter today when attorneys defending the eight Chicago White Sox players indicted with ten others for conspiracy in the alleged throwing of the 1919 world series announced that they had uncovered a "real scandal" in which men hitherto not mentioned in the case had won more than \$300,000 on the series.

The statements were made by Attorneys Benedict Short and Michael Ahearn when they made motion before Judge C. A. McDonald for reduction in the bail of the defendants. Judge McDonald reduced the bail of Eddie Cicotte, Claude Williams, Buck Weaver, Swede Risberg, Oscar Felsch, Fred McMullin and Oscar Jackson, White Sox players from a maximum of \$48,000 each to \$7,500, but announced he would permit no reduction in the cases of the alleged gamblers.

Mr. Short and Mr. Ahearn refused to go into details concerning their charges of a new scandal, but promised that the full particulars would be made public when the case is brought to trial.

"The players that have been indicted," said Mr. Ahearn in pleading for bail reduction, "are not the conspirators in this case. We are prepared to prove this charge and to prove that our defendants were not implicated. When the trial comes up we will reveal a real scandal and the names of the men who really are guilty."

It is believed that the seven players whose bail was set at \$7,500 today will surrender within a day or two.

Duluth, Minn., April 4.—A wound which he said he received in the "battle of Brest" was the ground for a plea of clemency in court today when Battling Bowen, negro pugilist was before the court for sentence.

Bowen, said he was shot in the leg while fighting with the American forces in the "battle of Brest." He previously pleaded guilty to holding up a poker game here when he secured \$1,000.

Brest was in the American "rest" area and an embarkation camp during the war.

COAL MINE STRIKE

IN ENGLAND NEAR SERIOUS CRISIS

Railway Men Said to Strongly Favor Going on Strike

GOVERNMENT MAY TAKE MILITARY STEPS

(By The Associated Press)

LONDON, April 4.—Signs tonight point to the dispute between the coal miners and the government as drifting in the direction of the most serious industrial crisis in recent years. There are rumors that the government has decided upon certain military steps likely to still further inflame the miners, while further emergency regulations will be issued in accordance with orders in council giving governmental departments almost unlimited powers to take possession of mines, lands, gas, electric and water supplies, horses, food and forage and to requisition all kinds of transport, to close ports or harbors, control shipping and cargoes, and fix prices of coal.

Wednesday will be the critical day, deciding whether the other sections of the triple alliance of the railway and transport workers will strike in support of the miners.

Railway Men Favor Strike

The railway men strongly favor a strike, on the ground that when the railways are taken out of government control a similar situation may arise and unless they support the miners now they cannot expect the miners' support should they need it at that time. That the so-called decontrol bill, Moderate opinion is concentrating in favor of the suggestion of Alfred Bigland, coalition Unionist, should be rescinded and the time limit for control fixed for May 30, instead of March 31, thereby giving time for discussion and arrangement of the wages question and the education of the miners to the real industrial position at home and abroad.

The anti-governmental press openly accuses Premier Lloyd George of trying to maneuver the labor party into a false position whereby he could appeal to the country against the labor policy of direct action and Bolshevism.

These newspapers recall the prime minister's recent attack on the revolutionary and Socialistic tendencies of the labor party.

The Chicago Tribune: "It is seldom one hears a violinist whose art is so truly a part of herself as Elba Sunders. She gives to even the most difficult composition a beauty and inspirational interpretation and her playing is always that of a finished artist."

THERE IS RIFT IN LABOR AGREEMENTS

Railway Clerks Will Take Cut When It Is Necessary

READJUSTMENT TO BE HELD IN ABEYANCE

CLEVELAND, O., April 4.—What is said to be the first break from the national agreement and national labor leaders and the first step toward direct negotiation with the railroads on proposed wage reductions occurred here today at a conference between representatives of 450 clerks employed in the New York Central's clearing house bureau and General Manager A. S. Ingalls, of the New York Central lines west.

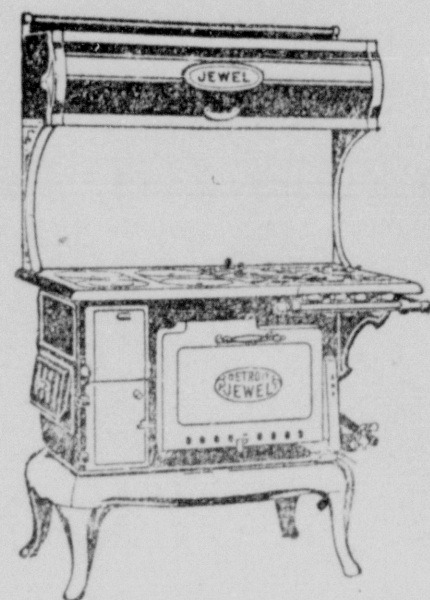

The conference was arranged at the request of the clearinghouse employees, Mr. Ingalls said, following a meeting in New York last week, when officers of the Brotherhood of Railway Clerks, rejected a proposal to restore rates prevailing prior to the railway labor board's decision, effective February 1, 1920, a reduction of about 18 per cent.

Mr. Ingalls said he accepted a proposition today that when the company finds it necessary to reduce wages it make the revision "along proper lines of business practice."

Readjustment of the salaries will be held in abeyance until the labor board decides the question of wage reductions in other branch of the service, Mr. Ingalls said.

Chicago, April 4.—Chicago soon may rent its fire department much the same as a taxi cab is rented. The city council revenue committee today recommended a charge of \$20 an hour for the first hour for each apparatus or company and of \$15 an hour thereafter to towns within one hundred miles.

"Some of our companies do more for suburbs than they do for the city," said Business Manager John F. Allerton, "and we get no pay."

PUBLIC HEALTH FACTS
HEARD AT CONFERENCE

Very Informing Presentation of Important Subject Made Sunday Night at the Congregational Church—Dr. Black and Mayor Crabtree Made Addresses.

About 120 people were present for the community conference on public health matters held at the Pilgrim Memorial of the Congregational church Sunday evening. Supper was served by the Brotherhood at 6 o'clock, for which a nominal charge was made to meet the expense. After the supper had been served, Elmer Spink as president of the Brotherhood asked Dr. Carl E. Black to preside. Then Dr. Black presented the general subject of "How Can We Improve Public Health," basing his remarks on the Red Cross survey report.

Dr. Black was followed by an address by Mayor E. E. Crabtree, on a health topic and in the general discussion Dr. C. H. Rammeikamp, Thomas Worthington and Dr. Woltman took part.

A musical program was given, including a violin solo by Lynell Conboy, with W. E. Krich as accompanist; a vocal solo by Roger Carter and William A. Kirby with Willard Wesner as accompanist.

The invocation was by Capt. Kirby and the benediction by Dean Scott of Illinois College. It was in every way a fruitful program and impressed many in the audience as they had not been before, with the close relationship between public health and public righteousness.

The County and the City.

Mayor Crabtree spoke, somewhat briefly but affirmed his sincere belief in the desirability of an all time health officer for the county and the city. He told some of the difficulties which meet the city health department.

as it is now maintained. The mayor spoke of the pleasant relationship existing between the county and the city and his knowledge that the commissioners are very anxious to do those things that are for the best interests of all concerned. Mr. Crabtree referred to what had been done in providing a pure water supply and expressed the belief that this is certain to mean substantial and steady growth of the city.

Some of the main paragraphs from Dr. Black's comprehensive presentation of the subject are given below.

Ever since it was proposed to undertake a survey of Jacksonville conditions by the Red Cross, using local committees under the direction of one young woman from Central Division, I find that I have personally gone through a series of rather contradictory reactions toward it. First I thought it was impossible to secure results that way. After I met Miss Beldon and saw the way in which she enlisted the co-operation of the committees I began to have a little confidence that good might result from it, but after I saw the report of the committee I was enthusiastic. The only thing which has somewhat dampened my ardor is the scant interest some members of the committees have taken in the discussion of the final result. Nearly 150 people put in an average of two hours each, or a total of practically a year's time for one person in gathering the data.

It would be foolish to claim that there are no errors in this report. But we welcome criticism of such errors. We would like to make it a true report. It is up to the people who are making this claim to point out and prove the errors, and until this is done we must accept the report as substantially correct.

The Red Cross report is rather the gathering of statistics and facts regarding conditions both desirable and undesirable than an attempt to discover these conditions or to suggest the remedy. These are functions of the community itself and constitute the reason for this and similar gatherings. Discussion must precede action. The health survey stands as a program for future work.

The time is coming when the public health survey will be one of the periodic duties of a health department in every community just as taking stock in a business enterprise properly conducted.

As citizens of this community, we have before us the public health section of the Red Cross survey. While it shows many good and creditable things, it also shows our mortality to be high (35 per 1,000, or deducting for the insane hospital and Norbury sanitarium, 20.8 per 1,000), and our infant mortality (birth 280, infant deaths 36, rate per 1,000, births 128.5, which is very high), is inexplicably high. The report shows that we have too many cases of contagious and communicable diseases and that many cases are not reported by our doctors. The Red Cross committee did not go out and manufacture these figures, but simply took them from the public records, which are available to you and me, if we care to examine them.

When we discover in our business that we are not getting results, if we are wise, we first discover the reasons and then change our methods. So it is in the health matter. The practical question is how can we improve health conditions in our beautiful city? We love our city and we believe in her future and I am sure that every citizen deep down in his heart desires her to have the best health conditions obtainable.

I want to name over to you a list of some of the things to do to bring about better conditions. I have divided these into two classes:

First, the general or major movements:

1. A supply of pure water. This is now an accomplished fact, and as soon as the mains are clean every citizen can drink from his own faucet. The next problem will be the extension of our mains

to the home and place of business of every citizen.

2. A system of sewers which will sufficiently supply service for sewage disposal to every house, shop and factory. Plans for this are now under way and we trust will be pushed rapidly to actual work on the enterprise.

3. The open well must be abandoned as a source of drinking water as soon as possible. This cannot be done until the water mains are extended.

4. The vault and cesspool must be closed as soon as sewerage can be provided. With these four problems met our cases of sickness and death will be greatly reduced.

5. Clean streets. The auto is doing a real service in keeping the horse off the streets. There has been a great improvement in our streets during recent years.

6. The fly problem is already largely met. Don't forget to "swat the fly" as well as do away with the manure piles in which he breeds so prolifically. Every house and shop should have efficient fly screens. I lived for a year in a country which had no fly screens and was about forced to the conclusion that of all sanitary measures fly screens were the most important.

7. Hospitals must be extended and improved, where the sick can receive better care and be more surely and speedily returned to health and work. One of the glaring disgraces of this beautiful and classic city is that it has no isolation hospital. No one thing would contribute so much to the safety of the public health and its cost would be comparatively small.

8. Medical inspection of children and school nursing. We have now two nurses who are doing a grand work in our schools, but it would be many times more efficient if medical inspection could be added. There are three nurses at work in the county. We can be justly proud of the large number of splendid nurses graduated from our training schools.

9. A full time public health officer and organization, with a public health laboratory, where all health problems can be studied and met are fundamental to modern public health service. This need, I am glad to say, is about to be met by our far-seeing county commissioners, mayor and city council. Nothing will do so much for Jacksonville and Morgan county.

10. A public health center, where all public health activities can be brought together and coordinated, overlapping prevented, and efficiency increased.

These are some of the major troubles which confront Jacksonville, and while they cannot all be worked out in a month or a year, I do believe that when we meet ten years hence to discuss the public health they will practically all be accomplished facts. In addition to these major movements we have a number of minor movements which must be undertaken. These are not called minor movements because they are less important, but because they either deal with special diseases or with special groups in the community.

1. Prevention and cure of tuberculosis. This is one of the bright spots in our health survey. A few years ago one in nine of our deaths was due to this disease and now one in 14 of our deaths is due to tuberculosis. This disease has been moved from second to fifth place among the causes of death.

2. Cancer. This disease has moved up to second place, as a cause of death, and is always accompanied by untold suffering and misery. So far little has been done, although it is even more preventable than tuberculosis. One in nine of our citizens die of cancer. Last year it claimed 29 citizens of Jacksonville alone. There is a crying need for organization in this matter. Improvement will be in proportion to the education of the public and of the medical profession in early recognition and prompt measures of relief.

3. The contagious and communicable diseases are no credit to our boasted intelligence or to our medical profession. Reporting and quarantine are both indifferently done, with the result that the number of such cases is far too high. We have in Jacksonville a number of educational institutions who are very sensitive regarding the public health, and parents considering sending their children make embarrassing inquiries. The way for us to hold such institutions is to put on such a public health program as will secure the confidence of the whole state and assure a speedy correction of all undesirable conditions.

The problem of typhoid fever is not so easily solved. Here we must consider more directly a pure water supply and sewerage. In looking over statistics it may look small to you to see that only four (4) died of typhoid fever in a year, but the problem really looks like this:

Four deaths, 80 people sick with typhoid; 320 weeks of 2,240 days, or about six years loss of time. The cost (1919) of this one disease could not have been less than \$25,000.00, and some estimate it at twice that amount.

4. Prevention of accidents. When we think of having four (4) children and fifteen (15) adults killed in one year, we have another net loss (\$48,700.00) which could in large part have been prevented.

5. Child welfare has already received some attention in this county, but as yet the work does not seem to have reached down to the question of infant mortality. This is one of the facts brought out by the survey to which I have great difficulty to reconcile myself. I can see no reason why we should lose 36 infants out of 280 births—a mortality of 12.8% per 1,000, while Brooklyn, N. Y., has only 4.0 per cent per 1,000, and New Zealand only 4.2 per 1,000.

7. Pure milk. A considerable effort was made some years ago to secure milk inspection and

tested herds, but recently the matter seems to have lapsed.

8. Hygiene of the mouth and throat. No line of effort is probably of so great importance to the welfare of both the child and the citizen as this one. Twelve states have now legalized the practice of dental hygienists, and with their advent we may expect a real revolution in health conditions among our school children.

You ask what the dental hygienist does. She reports to the parents the condition of the child's mouth, teeth and throat, if she suspects disease, so that the parent may have the child examined by the doctor or the dentist. She cleanses the children's teeth once a month and she gives tooth brush drills every day. You may think this is a very simple and innocent program, but of all the efforts which have been made to improve the health of the child this has borne the most fruit. Dental hygiene was begun to prevent the decay of teeth and pain and suffering, but it has accomplished much more as a general health measure. In one city, as a result of dental hygiene, diphtheria was reduced from 35 per cent to 18.7 per cent; measles from 20 per cent to 4.1 per cent, and scarlet fever from 14.1 per cent, to 5 per cent. In Bridgeport, Conn., where the plan has been carried out for a considerable number of years, the retardation of children from class to class has been reduced 36 per cent. Formerly 47 per cent of their entire budget went to provide for retarded children and by dental hygiene alone this has been reduced to 17 per cent. This is one of the public health movements which any community can afford, as it means reduction in the number of necessary teachers. The immediate difficulty just at present is to secure the trained hygienists.

It has been said that up to 20 years we run the human engine on high gear. From 20 to 35 we run on second; from 35 to 50 we run on low, and after 50 we have to be "pulled in."

My appeal is that Jacksonville and Morgan county get together on a real public health campaign. In our mayor we have a leader whom we can all follow. If we do this for ten years we will hardly understand how we could have so long neglected such vital questions. Let us stop saying "it can't be done," and get busy "doing it." Can we sit idle and see a neighboring city with a death rate of 12 per 1,000 when we really know that we are smarter than they?

COMMENCEMENT DAY
PLANS IN MAKING

Auditorium of New High School Building Will Be Used—School Census to Be Taken—Election Officials Named.

Unless present plans miscarry, the commencement exercises of Jacksonville high school next month will be held in the auditorium of the new high school building. This was the statement made last night at the meeting of the board of education. Bids were ordered to issue for the furniture for the rooms and also for the construction of lockers in the corridors.

The roll call at the meeting showed President Lippincott, Members Rogerson, Black, Hopper, Muehlhausen, Fiedler, Metcalf and Supt. Perrin present. Reports were made by committees on finance, building and grounds and teachers. The new high school building committee also presented a number of facts with reference to the building, and John Wolke, who is acting for the board in checking up some building work, was present and in conference with the board for an hour or more. Mr. Wolke during his inspection work had found most matters relating to the building in excellent condition and the proper action to correct any defects will be taken. Supt. Perrin while in the east made some further investigation concerning the law thru which it is possible for high schools to gain federal aid in vocational training. If certain courses are taught in accordance with provisions of the last law, aid can be secured co-operatively from both the state and federal governments. It is the expectation of the board that at a later time this aid will be secured for the local high school, thus making possible the extensive courses without consequent increase in expenditures.

The superintendent was able to report health conditions in the schools as somewhat improved, and made the statement that the peak of contagious diseases now seems past. One month recently, with a normal attendance of 2,100, the prevalence of diseases reduced the number of 1,850.

It was mentioned that it will soon be possible to install drinking fountains in the schools and thus do away with the expense of purchasing water for drinking purposes. The board decided to have a school census taken, the work to begin at an early date.

The preliminary preparations were made for the school election, which is to be held Saturday, April 16. The judges and clerks named are as follows:

First Ward—Henry Muehlhausen, Dr. W. P. Duncan, Mrs. William Day.

Second Ward—Charles Fiedler, Dr. Black, H. L. Caldwell.

Third Ward—T. H. Rapp, A. C. Metcalf, Mrs. Laura Larson.

Fourth Ward—G. S. Rogerson, Thomas Hoper, William H. Dalton.

PLAN FOR BENEFIT DANCE FRIDAY NIGHT

Extensive preparations are being made for the benefit dance to be given at Armory hall next Friday evening for the Passavant hospital laundry fund. The committee of ladies yesterday said that Capt. James had made it possible to use Armory hall without expense and that there is a great obligation to him on that account. Dunlap's orchestra will furnish the music and all of the plans indicate that the event will be one of the most interesting of the social season.

CHILD HAD NARROW ESCAPE FROM DEATH

The infant son of Mr. and Mrs. Lloyd Flynn, living in the northeast part of the county, came near death Sunday. The child caught the neck of his dress on a nail and in attempting to free himself twisted the neck band in such a way that he was almost choked to death. Two physicians were summoned and promptly gave the necessary medical attention.

MUSICIANS' ANNUAL BALL

Lovers of music and dancing will be accorded an unusual opportunity tonight, when the Musicians' Union of Jacksonville gives its annual ball at Armory Hall, not only to hear a splendid musical program but for continuous dancing. It has been arranged by Adam Ehrigott, Jr., and Glenn Skinner, members of the general committee, to have present the

Jacksonville band and two large orchestras, these units playing separately.

The Musicians' annual ball has come to be an annual event eagerly looked forward to because of the class of music furnished and the manner in which the dancing is conducted.

The dancing will begin at eight o'clock and indications point to a record-breaking crowd.

MALICE IS THEME OF EVANGELIST LAMANCE

Large Audience Hears Strong Sermon at Grace Church Monday Night — No Cottage Prayer Services This Afternoon.

There was a large attendance at the Monday night service at Grace M. E. church, when Evangelist La Mance based his sermon on "The Sin of Malice." An inspiring song service preceded the sermon. The large chorus choir under the direction of Mrs. LaMance is doing some fine work and the service of song is very important part of each evening's program.

Last night the evangelist took for his text: "If any man say I love God and hate his brother, he is a liar; for he loveth not his brother, whom he hath not seen, how can he love God, whom he hath not seen?" The speaker said in part: "People often talk love until they are black in the face but are short on delivering the goods. I was born in Kentucky and shared the malice which man and people of that section entertain toward the north. I confess with shame that I never read the life story and speeches of Lincoln until after I was converted."

"Sometimes malice affects whole nations. That is the thing which brought on the world war. Rulers and governments were greedy and were grabbing all they could. Then there is political malice, which prevents appreciation of any person associated with an opposing party. This has been carried to a scandalous extent in this country. The question is not: What are the merits of men or measures? but 'Are they of my party?' "But the worst malice of all is that which is sometimes found in the church. Sometimes it gets in the choir and works havoc there." The evangelist closed his sermon by telling of the trials of Joseph, which came upon him thru the hatred of his brethren.

About 50 boys and girls under 15 years of age met at the church Monday evening, and after some lively games and a splendid dinner they attended the service in a body.

On account of the meeting of the W. F. M. S. this afternoon at the home of Mrs. M. E. Gilbert, 603 South Prairie street, none of the cottage prayer meetings will be held this afternoon. All are invited to attend this meeting which is scheduled to begin at 3 o'clock. Mrs. LaMance will conduct the devotional exercises.

NEW COMPTROLLER LIFE LONG DEMOCRAT

Harding Appoints Boyhood Friend to Important Position — Has Been Prominent in Business Life of Marion

Marion, O., April 1.—(By the A. P.)—The new comptroller of currency in the Harding administration, D. R. Crissinger of this city, is a life long friend of President Harding and a well known Democrat, lawyer and banker.

Mr. Crissinger, long prominent in the business, financial and legal life of Marion, was born on a farm in Tully township, Marion county, December 10, 1860. He was educated in the public schools of Caledonia, Marion county.

He was graduated from Buchtel college at Akron, where he took the honors of his class. Subsequently he was graduated from the Cincinnati Law school and then entered into a law partnership here with Judge William Z. Davis, under the firm name of Davis & Crissinger.

Entered Politics Early in life Mr. Crissinger entered politics and was elected prosecuting attorney on the Democratic ticket in 1888 and was re-elected in 1891. In 1893 he was elected city solicitor and was re-elected in 1895 and 1897. He was the Democratic nominee for congress in 1904 and 1906.

Mr. Crissinger has been identified with a number of successful business enterprises in Marion. He assisted in organizing the Marion County Telephone company and the City National Bank. In the reorganization of the bank, recently, when the name was changed to the City National Bank and Trust Company, Mr. Crissinger became president of the institution. He is also a heavy stockholder in many of Marion's largest businesses and a large land owner.

President Harding and Mr. Crissinger have been close friends since boyhood and Mr. Crissinger took an active interest in the campaign of Mr. Harding for the presidency, both before and after his nomination last June. He is president of the Marion Civic association, which was organized shortly after the nomination for Marion during the campaign, and delivered the address of welcome at the homecoming exercises when Mr. Harding returned to Marion from Washington, after the nomination.

Mr. Crissinger accompanied President to Washington when the latter left for his inauguration and was a guest at the White House for some time after the inauguration.

Mr. and Mrs. E. A. Brennan and family and Mrs. Josie Arisman have returned from a visit in St. Louis.

MISS HOREN WILL BE BRIDE OF H. COHEN

Engagement of St. Louis Young Woman to Jacksonville Young Man Is Announced.

The engagement of Miss Ida Marie Horen of St. Louis to Herman H. Cohen of this city has recently been announced by Miss Horen's parents, Mr. and Mrs. J. Horen of St. Louis. Miss Horen is quite well known to a number of Jacksonville people, as she has spent several months here with her brother, Louis Horen, proprietor of the Army store.

Miss Horen in St. Louis has been prominent socially because of her identification with a wholesale millinery firm. A charming personality has won her favor with the many Jacksonville people she has met.

Mr. Cohen has been associated with his father in business for a number of years past and is accounted one of the substantial young business men of Jacksonville.

RELATIVE DIES IN PEORIA

Mrs. Adam Ehrigott of 632 South Church street received word yesterday of the death of her aunt, Mrs. Margaret Gruenwald which occurred in Peoria Saturday. Decedent was 73 years of age and was the wife of the Rev. Philip Gruenwald, who was pastor of the German M. E. church here about twenty years ago. She was the daughter of Henry and Margaret Schumann and was born in Quincy. She is survived by her husband and two daughters, Lydia at home and Mrs. Herman Anderson of Elgin. The remains were taken to Quincy where burial will be made Wednesday.

GOES TO LINCOLN TO CONDUCT FUNERAL

Rev. G. T. Wetzel left yesterday for Hartsburg, near Lincoln, where today he will conduct the funeral of Charles Seefeldt. The young man met death as the result of an automobile accident near Delavan Saturday. In company with a young man he was on the way home from Canton, where both are employed. In racing with another roadster the car in which the two were riding was overturned and Seefeldt received injuries from which he subsequently died.

DANCE ORDINANCE IS GIVEN FIRST READING

Is Made Part of General Amusement Ordinance and Provides License and Regulation—Other Routine Business.

At the regular meeting of the city council held Monday evening an ordinance was given a first reading for the licensing of dances and regulating the same. The ordinance is made a part of the general amusement measure and provides in addition to a fee the regulating of the kind of dancing that may be done in public dance halls.

Aside from the ordering of payment of claims and the receiving of officers' reports the council discussed the matter of laying sidewalks by special taxation. Ald. Cain reported excellent progress in the collection of wheel tax.

When the clerk called the roll it showed all members present except Ald. Williamson, who came in later and took his place in the council. The minutes of the last regular meeting were read and approved.

Claims against the city were presented and all those properly approved were ordered paid.

Officers' Reports. The following officers' reports were received and placed on file.

H. C. Clement, city treasurer, reported a balance in the general fund March 31 of \$2,949.85.

W. H. Cobb, water superintendent, reported the following receipts, meters sold, \$13; meter repairs, \$13.06; water sold, \$3,727.89. Total \$3,753.95.

Frank Kiloran, chief of police, Number of arrests, 16; city cases, 10; state cases, 6. Total fines and costs collected \$109.70. J. A. Crum, justice of peace, reported total fines collected, \$109.70.

Harry Summers had 11 interments at Diamond Grove cemetery, and John E. Pires had 10 interments at Jacksonville cemetery.

A. M. King, health physician, reported a total of 39 deaths. In city, 23; residents, 17; non-residents, 29; by wards, First Ward, 14; Second Ward, 2; Third Ward, 5; Fourth Ward, 16.

Vehicle License Coming, In.

Ald. Cain, chairman of the police committee, reported that 450 licenses for wheel tax had been issued by the police department in the past two weeks. Mr. Cain said the total number issued last year was 927 so that the showing of the department was an excellent one.

Ald. Ehnle, chairman of the sanitary committee reported that the garbage department was unusually busy at this time and had two extra wagons busy and hoped to clean up things in a week or so.

Ald. McGinnis, chairman of the public improvement committee, said that a walk had been laid in Hooker street last year and that the city should build a concrete intersection across Lafayette avenue.

This lead to a general discussion of the sidewalk situation and the mayor and the aldermen were of the opinion that something should be done to get walks laid where ordinances had been passed.

Ald. Flynn said that walks should be laid as pavements were under the public improvement act. It was the consensus of opinion that if this could be that it would be the most satisfactory way.

J. T. Walbridge who was present said that it could be done as he had laid walks in Granite City under the public improvement act. Mayor Crabtree said he would investigate the matter thoroughly.

Ald. Flynn Gets Job.

Ald. Flynn reported that boys had broken the electric street lights on Henry and East Chambers streets where they intersect with the Chicago and Alton railroad. The alderman thought the matter should be referred to the Boy Scouts to help stop this practice. Mayor Crabtree referred the matter to Ald. Flynn to act as chief scoutmaster to get the scouts to work.

An ordinance regulating public dancing was given a first reading and laid over under the rules. The ordinance provides for a fee of \$5 for holding the dance and regulation of the kind of dancing by a policeman or police matron. The council after agreeing to take up the general amusement ordinance for a second reading at the next meeting adjourned.

Desiring to practice genuine thrift at home, many thoughtful people have decided that it wiser to invest once in a Hoover than to invest repeatedly in new rugs. For this efficient cleaner saves rugs from wear by gently beating out all nap-cutting, embedded grit. It preserves rug beauty by lifting crushed nap and reviving dulled colors as it electrically sweeps up all clinging litter. It suction cleans. Only The Hoover does all these things. And it is the largest selling electric cleaner in the world.

A baking secret that will interest every cook

ONE of the most difficult things in baking is to get a cake that has a real delicate flavor, and yet sufficiently pronounced to satisfy. This problem has now been solved.

Karo gives just the delicate flavor to a cake that appeals to refined women everywhere. Many chefs in leading hotels use Karo exclusively for sweetening cakes, pies and French pastries.

Yet Karo is much more than a delicious food dainty. It is one of the greatest of all energy-producing foods, made in a way that brings out every bit of its goodness and wholesomeness.

Do you know what Dextrose is?

Millions of Karo users everywhere will be interested to know that Karo is practically a predigested food. For Karo is largely what bread and cake and potatoes and all starch and sugar have to become before they can be absorbed and utilized as energy-producing foods.

This statement, from the highest medical and food authorities, must convince you more than ever that Karo is one of the best and most wholesome foods you could possibly give the family.

It helps make strong, sturdy boys and girls, with energy and endurance for study and play.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c.

GRACE SUNDAY SCHOOL

Every Sunday except Easter the attendance of the past quarter surpassed the attendance of the corresponding Sunday of one year ago. This information was received enthusiastically and bespeaks a greater interest in the Sunday school.

The orchestra, as usual, discoursed appropriate music preliminary to the opening of the school. Never did the school sing with more pep and enthusiasm. The program, as arranged by the missionary superintendent, Mrs. Lowdermilk, consisted of an address by Miss Rose Ranson of the Sunday school, who has recently returned from France. She has been associated with Dr. Julian Wadsworth, who has charge of the reconstruction work at Chatteu Thierry. She made a most interesting talk, giving a very vivid picture of the actual workings of the great social center building at the battle-scarred town.

The regular monthly centenary offering was taken and amounted to \$34.14, and the attendance was 246.

Musician's Grand Ball tonight, April 5, Armory hall. Two large orchestras. Continuous music.

VISITORS AT MERRITT. Mr. and Mrs. John Barry of Merritt, entertained a number of relatives Sunday. The company included Mrs. Katie Rice of Camargo, Enos Massey and family, Miss Hattie Barry of Jacksonville, Mrs. W. W. Hawk and family of Winchester, Mr. and Mrs. Henry Huddleston of Merritt and James Barry and wife. It was a very pleasant affair.

Chrestos Geanetos of the Princess Candy Co., has gone to Galesburg and Chicago on business. He expects to return about Friday.

LITERBERRY NEWS ITEMS OF INTEREST

Baptist Aid to Meet Thursday With Mrs. Willard Young—Rev. Anna C. Shively Married—Other News Notes.

LITERBERRY, April 4.—The Ladies of the Baptist church will meet on Thursday afternoon with Mrs. Willard Young.

The big four fishing club started at five o'clock Monday morning for Wolf Lake, where they expect to catch a big lot of good fish.

Word has been received from Anna C. Shively, evangelist, whose home is in Springfield, Mo., that she was recently married to Rev. W. E. Shaw, pastor of the Presbyterian church. Mrs. Shaw will be remembered by the people of Literberry on account of the very successful meeting she conducted here some years ago; she sends kind regards to all her friends at this place.

Billy Gene Underbrink received a nice little wheelbarrow for a birthday present and is doing a good business now at the store, carrying parcels for the Liter-Underbrink Co., store. When asked to mail a letter for his father, he says: "I'll take it on my new wheelbarrow," then away he went to the P. O.

Mrs. Nannie Acken, who has been visiting Mrs. Scribner for the past month, has gone to Waggoner for a short stay with Mrs. Street who is a sister; and from there Mrs. Acken will go to her home in Poughkeepsie, N. Y.

Mr. and Mrs. William Woods, Miss Helen Young, Mr. and Mrs. Young, all of Jacksonville; Mr. and Mrs. Jesse Decker of Virginia, and Mary Rachel and Ireland Thompson of Arcadia were callers at Maple Mound Sunday.

The Baptist Sunday school is improving; there was a goodly number present on Sunday morning and a very interesting session was held; there are seven classes in this school, the little folks class numbering about fifteen and some times twenty.

Mr. and Mrs. Robert Loving visited Mrs. Jennie McFarland Sunday.

Mr. and Mrs. John Daniels and children and Mr. and Mrs. Alphonso Ratliff drove to Jacksonville Sunday afternoon.

Those from other schools attending the final examinations at Literberry Friday were: Everett Mason, Paul Ogle, Eleanor Diawiddie, George Jones, from Grace Chapel neighborhood, and Theodore Thompson and Johnnie Anderson of Arcadia.

I am reducing all prices on gang and sulky plows, disc harrows, corn planters, cultivators, until present stock is exhausted. 15 per cent off from my present selling price. W. E. Murry, Literberry, Ill.

ATTENDED FUNERAL OF RELATIVE AT PERRY

Mr. and Mrs. A. B. Read, Charles M. Read and Mr. and Mrs. George W. Spires returned Sunday evening, after attending the funeral of Mrs. John A. Read of Perry. Six nephews of the deceased, Charles Wilkins, Walter Wilkins, Paul Price, Harry Read, Charles M. Read and George W. Spires were the pall bearers.

OF INTEREST TO WOMEN

A prominent physician says that by far the largest number of women's ailments are not surgical ones, that is they are not caused by serious displacements, or growths. Symptoms similar in character are often brought about by much simpler conditions. We therefore urge every woman who suffers from backache, headaches, bearing down pains, side ache, irregularities, nervous despondency or weakness to give Lydia E. Pinkham's Vegetable Compound a trial. It acts as a natural restorative and often prevents more serious troubles.

This is Battery Inspection Week

Free examination and unbiased advice at Prest-O-Lite Service Stations

DRIVE around to the Prest-O-Lite Service Station this week and let experts give your battery the once-over. Get ready for the motoring season just ahead.

No matter what make your battery is, the service station's job is to examine it and advise you intelligently and honestly. Maybe it doesn't need so much as a drink of distilled water.

Anyhow, it won't cost you a nickel to find out. And now's the time to do that. Some little five-minute adjustment NOW may save you the price of a new battery later.

You are careful to see that your car has gas, oil and water. Don't overlook that equally important element—battery-juice. Every Prest-O-Lite Service Station is a life-extension dispensary for batteries.

When you do need a new battery, you'll be glad to know that Prest-O-Lite is back to pre-war prices and that an allowance will be made on your old battery. Get that examination now.

TARIFF PROBLEM IS ONE OF LONG STANDING

First Congress Under Constitution Faced Same Problem as Will the Sixty-Seventh—Tariff Statutes of Other Days Recalled.

WASHINGTON. — (By The Associated Press.)—Many a musty oddity of forgotten tariff statutes has been turned up by a scratch of the capitol archives. This has disclosed that the first congress assembled under the Constitution faced the same problem as will the Sixty-Seventh when it meets a week hence—that of enacting a tariff law.

The first act was passed on July 1, 1789. Its formal title statement of purpose—"for the laying a duty on goods, wares and merchandise imported into the United States"—carried a bluntness which statesmen for the next hundred years were to avoid.

"It is necessary for the support of the government," this first congress said, "for the discharge of debts of the United States and for the encouragement and protection of manufacturers that a duty be laid upon the goods, wares and merchandise imported."

First Bill a Simple One.

It was just 109 years, the compilation shows, before such a straightforward statement of purpose about "encouraging and protecting manufacturers" would be made again in an import tax statute, the purpose was most evidently behind most of the scores of following acts. So simple was the first bill that it required only two pages of the committee print against more than 100 for the Payne-Aldrich act of 1909.

Too simple, it probably was, for a year later—August 10, 1790—congress passed "An act making further provision for the payment of debts of the United States."

More dextrally, the purpose of the next tariff bill as it passed on March 2, 1792, was stated to be "for the raising of a farther sum of money for the protection of frontiers," evading any remarks about protection of industries. Its duties were increases, and one duty imposed was "on coal, per bushel, four and one half cents."

Two years later the famous Tripoli trouble arose and congress, on March 20, 1794 passed "An act to protect the commerce and seamen of the United States against the Barbary powers." This act slapped on a general increase of 25 and 10 per cent ad valorem duties. The statute stated itself to be temporary, for one year, but the title proved to be

too good to be wasted. Year by year, after, clear up to 1813, congress reiterated its laudable purpose, re-enacted its increased schedules, and announced it was going after the Barbary pirates with a continuation of the tariff for another twelve months.

War Brought Large Increase.

In 1813, however, the nation went to war with Great Britain, and in a hasty and brief paragraph of statute, congress announced "an additional duty of 100 per cent on all permanent duties," to be collected for the duration of hostilities. The tax on imported salt, incidentally, got up to 20 cents a pound.

This was about the end of the early tariff era, according to the compilation. For the next forty years, most of the acts were labelled "to reduce duties." This they plainly did, for the salt tax was placed at 10 cents a bushel. Congress was fruitful of enactments "to release from duty iron prepared for railways," and the like.

Presidential proclamation reduced schedules even further. One dated February 25, 1858, noted that "vessels and subjects of His Holiness the Pope" were no longer to be charged higher custom rates, because reciprocity with the Holy See had been arranged.

But the tariff came back with the beginning of the Civil War. Congress on March 2, 1861, passed "An Act to provide for payment of outstanding Treasury Notes." It was composed of 26 pages of tariff schedules. This length foreshadowed the modern era.

Misplaced Optimism.

With misplaced optimism, on July 14, 1862, congress asserted it had passed "An Act increasing, temporarily the duties on imports." The succeeding war enactments took the word completely out of the congressional tax-laying vocabulary.

With the end of the Civil War, acts reducing import duties went into effect, but on March 3, 1883, when the modern political controversy over tariff was well under way, the title was almost as politely evasive as the version about the Barbary pirates. It was called "An Act to reduce internal taxation."

One or two measures designed as reductions intervened, and then congress came back, after a century, to speak as straightforwardly under President McKinley, in 1897 as it had under President Washington. The tariff label officially was "An Act . . . to encourage the industries of the United States." The Payne-Aldrich law, enacted some 16 years later, used exact the same words, while preliminary drafts of majority proposals to come before the new congress which meets a week hence indicate that the McKinley-Washington precedent will be respected again.

Guy Henderson was added to the list of city visitors from Woodson Monday.

Women of Middle Age

THE critical stage of a woman's life usually comes between the years of 45 and 55, and is often beset with annoying symptoms such as nervousness irritability, melancholia, heat flashes which produce headache and dizziness, and a sense of suffocation. Guard your health carefully, for if this period be passed over safely, many years of perfect health may be enjoyed.

Lydia E. Pinkham's Vegetable Compound is especially adapted to help women through this crisis. It exercises a restorative influence, tones and strengthens the system, and assists nature in the long weeks and months covering this period. It is prepared from medicinal roots and herbs, and contains no harmful drugs or narcotics. Its value is proven by many such letters as these:

Afton, Tenn.—"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. During Change of Life I was in bed for 18 months and had good care, but did not improve. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, which I did, and in a short time I felt better. That was five years ago, and now when I feel run down and nervous I take the Compound and it always does me good. I wish all women would try it during Change of Life, for I know it will do them good."—Mrs. A. KELLER, Afton, Tenn.

CAN'T FIND WORDS TO EXPRESS GRATITUDE

Eighteen Years of Suffering Ended For Springfield Woman When She Began Taking Tanlac—Gains 12 Pounds

"When I tell you I have been relieved of eighteen years' suffering and have gained twelve pounds in weight besides, you can understand why I think so much of Tanlac," said Mrs. Rose Dauson, of 230 West Mason street, Springfield, Ill.

"During those eighteen years I was never able to eat anything without suffering from indigestion. Everything I ate caused gas to form which bloated me up until I felt like I was smothering, and sharp pains ran through me until I could hardly stand it.

"I had terrible sick headaches,

was faint and dizzy and my nerves were all unstrung. It was generally midnight or later before I could get to sleep, and even then my sleep was never sound and restful. I ached all over, felt tired and worn out all the time and couldn't take any interest or pleasure in anything.

"It was certainly a lucky day for me when I started on Tanlac for I began to improve with the very first bottle, and by the time I had finished the third one my indigestion was gone. I have a hearty appetite now, can eat anything I want and as much as I want and never feel any of those old troubles.

"My headaches and all the other aches and pains have left me, I sleep fine every night and wake up rested and refreshed. I feel altogether like a different person and can't find words so fully to express my gratitude to Tanlac."

ILLINOIS COLLEGE Y. W. C. A. OFFICERS

Regular meeting of the Illinois College Y. W. C. A. was held in college chapel Monday afternoon. The installation of the new cabinet comprised the program for this meeting. Each retiring officer presented the symbol of her department to the incoming officer with an appropriate speech.

The retiring officers are: President, Mattie Reische. Vice President, Rena Chaney. Secretary, Alma Shuman. Treasurer, Sylvia Taylor. Chairman of Social Committee, Hazel McCormick. Chairman of Program Committee, Elaine Thieland. Chairman of Membership Committee, Alice Bray. Chairman of Publicity Committee, Rena Chaney. U. F. R. Gladys Knapp. The new officers are: President, Marie Thomas. Vice President, Alma Shuman. Secretary, Helen Steers. Treasurer, Bonnie Woods. Chairman of Social Committee, Mabel Ryle. Chairman of Program Committee, Winifred Butcher. Chairman of Membership Committee, Alma Shuman. Chairman of Publicity Committee, Doris Linfoot. Chairman of Social Service Committee, Ruby Mann. U. F. R., Doris Linfoot.

After the meeting the advisory board served tea in Gamma Delta hall, which was prettily decorated for the occasion.

Subscriptions made to Passavant Hospital building fund are now due and payable to F. E. Farrell, treasurer, at the Farrell State Bank.

Mrs. Marguerite Berry Morgan is at the home of her mother, Mrs. Arthur Stewart, convalescing from a slight operation.

IMPORTANT SESSION OF PRESBYTERIANS

Various Problems to Be Taken up at Meeting of General Assembly May 19, at Winona Lake, Ind.

The general assembly of the Presbyterian church will meet in the new Assembly hall, Winona Lake, Ind., on May 19. One of the reports to come before the assembly will be that of the committee on raising the million dollar debt of the Interchurch World Movement and a demand that the men who were responsible for getting the Presbyterian church into this muddle shall resign their positions in the church and, perhaps, the abolishing of the executive commission. This will likely cause a lively debate. Another question that will cause a warm discussion is consolidation of the boards of the church.

A new moderator to succeed Dr. S. S. Palmer of Columbus, O., will be selected; also a successor to Dr. W. H. Roberts, who served the church for many years as stated clerk. The man who is most prominently considered for this place is the stated clerk of the Great Synod of Pennsylvania—the largest and richest synod of the church—Rev. Benjamin McKee Gemmill, Ph. D.

Dr. Gemmill possesses the qualifications for this position in a marked degree. He is alert, capable, talented and pleasing in manners. He has had large experience in administrative and executive work as permanent clerk of the Synod of Pennsylvania for seventeen years and as state clerk. He has given the synod an economical administration; causing to be adopted new rules for the expediting of the business of the synod. He is author of two church books, "The Manual for Synods," and "The Manual of Parliamentary Practice for Church Courts," both of which show that he is an authority on church law and procedure. He is consulted on all ecclesiastical subjects by men of the various synods. Invariably his judgment is followed as sane and sound. His discussion of some of the practical and legal problems before the church have appeared in the religious press from time to time and attracted wide-spread attention. He has been recognized as one of the leading legal minds of the church and the last assembly elected him to the permanent judicial commission—the supreme court of the Presbyterian church.

Dr. Gemmill is modest and retiring, serving small churches; being at one time a home missionary and knowing sympathetically all the problems of the home missionary. He has a large heart and no minister ever appeals to him in vain for assistance in getting a hearing before a vacant church. His writings on the ministry have induced scores of young men to consider that calling, and some of his writings have been republished by other denominations and circulated among a million of their young people. He is thoroughly acquainted with the constitutional history of the Presbyterian church and is a safe and sane leader; just such a man as the church needs in these days of confusion.

Dr. Gemmill is an ardent advocate of church union, believing that the various branches of the denominations should unite first of all, and then some sort of federal union worked out for all the denominations for certain forms of united work and effort.

Dr. Gemmill was an honor man when he graduated from Lafayette College and from Princeton Theological Seminary. He also studied at McCormick Theological Seminary, in Chicago. His daughter is a graduate of Wilson College for Girls and his son is a junior in Lafayette College. Dr. Gemmill is thoroughly loyal to Presbyterian institutions.

As a parliamentarian; as one who is learned in church law and procedure; as one quick to apply his knowledge to every question; as decided, but courteous; as loyal to the church and its doctrines and government; as a preacher and as a pastor, Dr. Gemmill possesses marked and distinguished qualities as the logical successor to the great Dr. William H. Roberts.

The Presbyterian church would make no mistake in unanimously electing Dr. Gemmill to the office of stated clerk of the assembly.

MUCH OPIUM FROM U. S. TO JAPAN

Baron Fujimura Says It Is for Re-Export to China.

Tokio. — By the Associated Press.—Morphine brought from the United States every year to Japan for re-export to China amounts roughly to 65,000 pounds, Baron Fujimura, raising the question of opium traffic in China, asserted at a session of the Budget committee of the House of Peers.

It is impossible under existing conditions, Baron Fujimura said for China to prevent the importation of opium and morphine and the Chinese are compelled to endure terrible sacrifices in consequence.

A large quantity of morphine is brought every year to Kobe from England, said the Baron, as well as from India and other places. It is re-exported from here to Tsingtao and to Kwangtung.

The Japanese Government General of Kwantung derives a revenue of Y. 3,000,000 (about \$1,500,000) every year thru opium, Baron Fujimura said under these circumstances he declared, it is not surprising that the Chinese charge the Japanese government with conniving at this nefarious trade.

Such a state of affairs is inexcusable, whether viewed from the standpoint of humanity or from that of International Relations, declared the Baron, and he asked what the government had to say on the matter.

In reply Mr. Tokorami, the home minister, said that the Japanese government has been controlling the opium traffic in accordance with provisions of the Opium Law of 1919. This law required that all those who exported opium should first obtain the permission of the home minister. The home office allowed no permits for the exportation of narcotics except under the condition that they were to be used solely for pharmaceutical purposes. On account of persistent talk regarding the smuggling of opium, the government framed a new law in December which came into operation at the beginning of January. It was hoped, he said, that this would prevent the smuggling alleged to be going on in the past years.

Count Uchida, the foreign minister, supplementing the prime minister's explanation, said that Japan signed the international opium treaty of 1912 but has not ratified it. As the treaty will begin to operate from this year, however, the government, he said, is determined to exercise strict control over the trade in opium.

STOMACH DISTRESS

Peoria, Ill.—I found great help from the use of Dr. Pierce's Golden Medical Discovery. I was suffering from stomach trouble and nothing seemed to relieve me until I took the 'Discovery.' Gradually the distress diminished and finally left me entirely. I also find Dr. Pierce's Pleasant Pellets a good family medicine. They clear the liver and stomach of all impurities, in fact, I find them the only thing that will keep myself and family in health.—Michael M. Schuster, 300 Eckley St. Send 10 cents to Dr. Pierce, Buffalo, N. Y., for a trial pkg. of any of his remedies.

Reasons for Reo

CONFIDENCE: Giving the public their money's worth, has been REO's policy for over 16 years—REO has the confidence of the public.

FINANCE: Because of the soundness of the REO policy—REO has grown to be the second strongest factory financially, in the automobile industry—REO owners know they are safe. There will always be REOS.

REO POWER: REO motors, axles, transmissions, and parts are REO built to REO standards, for REOS only—they are the best reasons for REO.

DEPRECIATION: Shifting types, changing models and uncertain policy are bound to depreciate value for the owner. REO transportation means slow depreciation for the owner.
